

# DYNASTY

— HOMES —

CONSTRUCTION PROCESS

## Excavation

- Break ground for your new home
- Pour the footings and foundation
- Install the underground plumbing systems

## Framing

- Build the structure of your new home
- Walls, roofing, windows and exterior doors are set in place

## Mechanicals

- On-Site Electrical Walk Through. We will walk through where you want electrical plugs, lighting, TV mounts and any Audio Visual components
- Install your plumbing, electrical and HVAC systems

## Insulation / Drywall

- Your home takes shape as drywall is hung and finished

## Trim / Paint

- On-Site Trim Walkthrough. We will go over any custom woodwork or location/placements needed.
- Install cabinets and trim work
- Paint woodwork, walls and ceilings

## Flooring, Countertops, Plumbing, Lights and Remaining Finishes

- On-Site Tile Walkthrough. We will go over tile directions, patterns, shower details, etc..
- Fixtures will be hung to our typical standards unless specified.

Completion - All work will be inspected at Walkthrough
